

## CHAPTER 11. PUBLIC PARTICIPATION

This chapter describes some of the opportunities that have been made available to the public for comment on and participation in the development of the Klamath River TMDL Staff Report and Action Plan as well as the recalculated Site Specific Objective (SSO) for dissolved oxygen (DO). (See Appendix 1)

### 11.1 Public Outreach

Regional Water Board staff have held numerous meetings to update and inform the public throughout the Klamath River TMDL development process and recalculated SSO for DO in the mainstem Klamath. Opportunities for public participation in the recalculation of the SSOs for DO in the mainstem Klamath began in 2009 when staff efforts first began on this separate project. The first public outreach meeting related to the Klamath River TMDLs was held on February 25, 2004 in Yreka, California. Since that time there have been 17 additional outreach meetings held in various locations throughout the Klamath River basin and the North Coast Region, the most recent meeting occurring on July 9, 2009. A complete list of the public meetings that have been held about the Klamath River TMDL is presented in Table 11.1.

Table 11.1: Public meetings for the Klamath River TMDL

Subject	Date	Location
Klamath and Lost River TMDL Development Kick-off	February 25, 2004	Yreka, CA
	February 26, 2004	Klamath Falls, OR
	March 2, 2004	Fortuna, CA
Klamath River TMDL Water Quality Models Scoping Meeting	August 4, 2005	Yreka, CA
CEQA Scoping Meetings for the Klamath River TMDL	February 16, 2006	Yreka, CA
	March 1, 2006	Eureka, CA
	July 18, 2006	Orleans, CA
	January 11, 2007	Santa Rosa, CA
	January 12, 2007	San Francisco, CA
Scoping for Klamath River TMDL Implementation	March 3, 2009	Klamath, CA
	March 3, 2009	Arcata, CA
	March 4, 2009	Tulelake, CA
	March 5, 2009	Montague, CA
	March 12, 2009	Santa Rosa, CA
June 2009 Public Review Draft of the Klamath River TMDL and SSO for DO	July 6, 2009	Klamath Falls, CA
	July 7, 2009	Yreka, CA
	July 8, 2009	Orleans, CA
	July 9, 2009	Klamath, CA

#### 11.1.1 CEQA Scoping Meetings

The purpose of the California Environmental Quality Act (CEQA) Scoping Meetings was to solicit public comments to help staff assess the potential environmental scope of the environmental analysis. Holding a scoping meeting is a requirement of the CEQA. Given the vast expanse of the Klamath River basin and the statewide and national interest in Klamath River issues, Regional Water Board held several Scoping Meetings throughout the basin, as well as meetings outside the basin, to ensure that all parties who

wished to give input would have an opportunity to do so. Table 11.1 summarizes the scoping meetings for the Klamath River TMDL. The comments received at the CEQA Scoping Meetings that concerned the scope of the environmental review are summarized in Chapter 9. These comments, and others, helped to shape the scope of the environmental review and specific aspects of the analysis.

### **11.1.2 Klamath River TMDL Webpage**

In addition to holding public meetings, Regional Water Board staff have maintained a webpage on the North Coast Regional Water Quality Control Board’s website where the latest, up-to-date information on the Klamath River TMDL development process can be found. Fact Sheets, which contain summary information on the TMDL development process in the Klamath River basin, are also located on the website. The first Fact Sheet was posted in November 2004. There have been six updates to the fact sheets since that time, the latest on January 27, 2006. The website can be accessed at:

<[http://www.waterboards.ca.gov/northcoast/water\\_issues/programs/TMDL/klamath\\_river/](http://www.waterboards.ca.gov/northcoast/water_issues/programs/TMDL/klamath_river/)>.

## **11.2 Presentations to the Regional Water Board**

Periodically, Regional Water Board staff have presented updates and status reports to the Regional Water Board and interested members of the public on the Klamath River TMDL. The presentations were opportunities for the public and Board members to hear status updates and background information regarding progress and emerging issues related to the TMDL development process. At each of these meetings, the public also had the opportunity to give comment before the Board. All such comments are part of the public record. Table 11.2 presents a complete list of the presentations given to the Regional Water Board about various aspects of Klamath River TMDL development.

Table 11.2: Presentations given at Regional Water Board meetings

<b>Subject</b>	<b>Date</b>	<b>Location</b>
Status Report on TMDL Development	February 10, 2004	Santa Rosa, CA
Update on Issues and Activities in the Klamath River Basin	August, 25, 2004	Crescent City, CA
Update on Klamath Basin TMDL	May 4, 2005	Weaverville, CA
Klamath River TMDL, Klamath River Fish Kill and Fish Disease Overview, & Update on Klamath River Blue Green Algae	November 29, 2006	Santa Rosa, CA
Update on Development of Klamath River TMDL	July 24, 2008	Santa Rosa, CA
Update on Administrative Draft Klamath River Temperature TMDL	September 11, 2008	Santa Rosa, CA
Update on Administrative Draft Klamath River DO, Organic Matter, Nutrients, and Chlorophyll-a TMDL	December 11, 2008	Santa Rosa, CA
Klamath River TMDL Implementation Plan Summary/Scoping	January 29, 2009	Santa Rosa, CA
Workshop on the Klamath River TMDLs and SSO for DO	July 23, 2009	Santa Rosa, CA

Table 11.2 (cont.): Presentations given at Regional Water Board meetings

<b>Subject</b>	<b>Date</b>	<b>Location</b>
Workshop on the Klamath River TMDLs and SSO for DO	September 10, 2009	Grenada, CA
Update on Klamath River TMDLs and Site Specific Dissolved Oxygen Objective Schedule	October 1, 2009	Santa Rosa, CA
Update on Klamath River TMDLs Water Quality Modeling Technical Analysis	December 10, 2009	Santa Rosa, CA

### 11.3 Presentations to Various Organizations and Conferences

In order to reach a broad audience regarding the details of the Klamath River TMDL, Regional Water Board staff have presented updates on the TMDL at public meetings held by other organizations and agencies. Additionally, staff have given presentations at conferences specifically focused on the Klamath River basin, as well as science conferences pertaining to water quality protection. A complete list of these presentations is available in Table 11.3.

Table 11.3: Presentations given at other organization's public meetings and conferences

<b>Subject</b>	<b>Date</b>	<b>Venue</b>
Klamath Basin TMDL	October 1, 2002	Siskiyou County Board of Supervisors, Yreka, CA
Klamath and Lost River TMDLs	January 22, 2004	Klamath Environmental Coalition, Yreka, CA
Klamath, Shasta, Scott, and Salmon River TMDLs	June 9, 2004	Lower Klamath Basin Science Conference, Arcata, CA
Klamath River TMDL	June 24, 2004	Klamath River Basin Fisheries Task Force Meeting, Klamath Falls, OR
Klamath River TMDL	December 7, 2004	Klamath River Technical Work Group, Yreka, CA
Klamath River TMDL	June 15, 2005	Klamath River Basin Fisheries Task Force Meeting, Yreka, CA
Klamath River TMDL	October 19, 2005	Klamath River Basin Fisheries Task Force Meeting, Klamath Falls, OR
Klamath River TMDL	February 9, 2006	Klamath River Basin Fisheries Task Force Meeting, Brookings, OR
Klamath River TMDL	September 13, 2006	Protecting California's Waters, University of California Davis
Klamath River TMDL and 401 Certification	October 12, 2006	Klamath Basin Informational Policy Tour, Klamath, CA
Klamath River TMDL	November 7, 2006	Klamath Watershed Conference, Redding, CA
Klamath River TMDL	January 29, 2007	National Research Council, Committee on Hydrology, Ecology, and Fishes of the Klamath River Basin, Klamath Falls, OR
Characterizing Natural Conditions of Klamath River for TMDL Development	June 25, 2007	Water Environment Federation, TMDL 2007 Conference, Seattle, WA
Klamath River TMDL	December 2007	Presentation by ODEQ at Upper Klamath Basin Annual Science Review, Klamath Falls, OR
